PERIODONTOLOGY FOR EVERYONE

Welcome to the
EFP, where perio
science goes
from strength
to strength.

WELCOME TO
THE PERIO FOR
A BETTER LIFE
INITIATIVE

SCIENCE
& RESEARCH

EDUCATION
& TRAINING

HEALTH &
WELL-BEING

Welcome to the EFP. Welcome to 'perio for a better life'

'PERIO FOR A BETTER LIFE' IS MORE THAN OUR STRATEGIC VISION – IT IS AN INITIATIVE WHICH WE WILL BUILD TOGETHER

Periodontology is clearly a key force in modern dentistry: its science, its impact on research and training, and its role as a specialist clinical practice give it a leading place among multidisciplinary therapies. Most importantly, the interaction between perio and general health means that periodontology plays a vital role in global society.

Science & Research

Education & Training

Health & Well-being

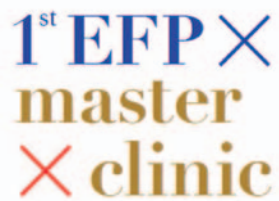

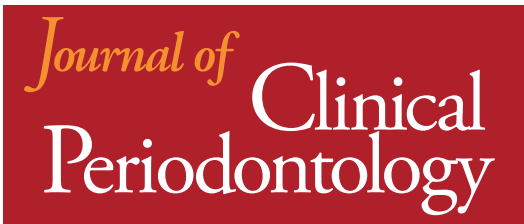

Science & Research. Education & Training. Health & Well-being. Three frameworks that bring together the periodontal and dental community with other stakeholders to enhance clinical practice and improve the health and well-being of the population.

Our Brands

THESE BRANDS – THE WORLD-LEADING TRIENNIAL CONGRESS FOR PERIODONTOLOGY AND IMPLANTS, A SCIENTIFIC DENTAL MAGAZINE WITH A SIGNIFICANT IMPACT, AN ANNUAL WORKSHOP AND THE NEW MASTER CLINIC CONFERENCE FOR SHARING SCIENTIFIC KNOWLEDGE – REPRESENT THE BACKBONE OF THE EFP’S GLOBAL DIMENSION

EuroPerio, the Journal of Clinical Periodontology, the European Workshop and the Master Clinic are the four main activities through which the European Federation of Periodontology plays a global role in promoting the dissemination of science and an evidence-based clinical practice.

EuroPerio. The World's No.1 periodontology congress

EuroPerio is a triennial scientific congress created in 1994, whose eight editions have traversed Europe, and which has become the global benchmark for the sector.

The high quality of the speakers allows the creation of a top-level scientific programme which sets trends every three years. The support of businesses is fundamental to the success of this scientific event.

European Workshop of Periodontology

EFP Perio Workshop

The **European Workshop** is the driving force of the EFP. This annual scientific gathering of the main European and global experts in periodontology encourages the spread of knowledge through the establishment of agreements of great relevance and impact to the scientific community. A free-access monographic edition of the Journal of Clinical Periodontology distributes the workshop's content.

"Participants in the most recent European Workshop, "Effective prevention of periodontal and peri-implant diseases", held in La Granja de San Ildefonso, Spain, November 9 to 12, 2014

European Workshop of Periodontology

Since 1993, 11 editions of the workshop have been held, led by Klaus Lang and Mariano Sanz. In 2012, the first joint workshop involving the EFP and the American Academy of Periodontology (AAP) took place.

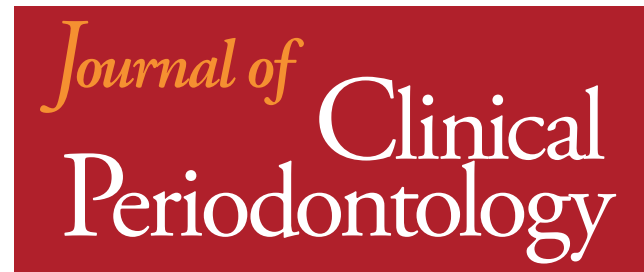

ITTINGEN SWITZERLAND

- 1993** Clinical practice of periodontology. Niklaus Lang and Thorkild Karring.
- 1996** Chemicals in periodontics. Niklaus Lang, Thorkild Karring and Jan Lindhe.
- 1999** Implant dentistry. Niklaus Lang, Thorkild Karring and Jan Lindhe.
- 2002** Periodontal practice. Niklaus Lang, Maurizio Tonetti and Denis Kinane.
- 2005** Etiology and pathogenesis leading to preventive concepts. Niklaus Lang
- 2008** Contemporary periodontics. Niklaus Lang, Denis Kinane, Jan Lindhe, Mariano Sanz and Maurizio Tonetti.

LA GRANJA DE SAN ILDEFONSO. SPAIN

- 2009** EFP-ADEE European Association of Dental Education. Periodontal education. Mariano Sanz, Ubele van der Velden and Joerg Meyle. Sponsored by Dentaïd.
- 2010** The biology of periodontal and peri-implant diseases. Mariano Sanz, Klaus Lang, Denis Kinane, Tord Berglundh, Iain Chapple and Maurizio Tonetti.
- 2011** Quality of reporting of experimental research in implant dentistry. Mariano Sanz, Tord Berglundh, Maurizio Tonetti and Klaus Lang.

- 2012** EFP-AAP American Academy of Periodontology Periodontitis and systemic diseases. Mariano Sanz, Iain Chapple, Maurizio Tonetti, Robert Genco, Thomas Van Dyke and Kenneth Kornman. Sponsored by Colgate.
- 2013** Periodontal plastic surgery and soft-tissue regeneration. Mariano Sanz, Christophe Hammerle, Soren Jepsen and Maurizio Tonetti. Sponsored by Osteology Foundation and Geistlich.
- 2014** Effective prevention of periodontal and peri-implant diseases. Mariano Sanz, Iain Chapple, Soren Jepsen and Maurizio Tonetti. Sponsored by Johnson&Johnson and Procter&Gamble.

EFP Master Clinic.
A new proposal to raise
the level of expertise in
periodontics.

Since 2014, the EFP has also edited JCP Digest, a tool for disseminating scientific knowledge.

The Journal of Clinical Periodontology (JCP) is the official publication of the European Federation of Periodontology. Editor emeritus Jan Lindhe was the driving force behind this publication from its creation in 1994. Today's editor in chief is Maurizio Tonetti. Published monthly by Wiley-Blackwell, JCP has an impact factor of 3.61

The journal's aim is to convey scientific progress in periodontology to those concerned with the application of this knowledge for the benefit of the dental health of the community. It addresses itself primarily to clinicians, general practitioners, and periodontists, and also to teachers and administrators involved in organising the prevention and treatment of periodontal disease.

The Federation EFP National Societies

THE TOTAL VALUE

Made up of 29 national periodontal societies, the EFP is one of the world's main nodes for the generation of knowledge and the dissemination of science, and is one of the most dynamic scientific networks in dentistry.

The EFP, much more than
the sum of its parts.

Sören
Jepsen,
EFP
President

The last 25 years of periodontology in Europe have been associated with the evolution of the EFP. It is a privilege for me to take on the presidency during 2015, confident in the knowledge that a project driven by some visionaries at the end of the 1980s is today a solid organisation that is a scientific reference point in the spreading of knowledge, in the improvement of education, in clinical practice, and in the well-being of patients.

The European Federation of Periodontology is the product of the good work of each of its 24 full members and its five associate members. But it is also the fruit of the labours of those who preceded me as EFP president and whom I would like to thank for

their contribution and dedication: Jean-Louis Giovannoli ('92), Mariano Sanz ('93), Pierre Baheni ('94), Lavinia Flores de Jacoby ('95), Ubele van der Velden ('96), Gil Alcoforado ('97), David Hillam ('98), Alikí Andronikaki ('99), Gianfranco Carnevale ('00), Declan Corcoran ('01), Michel Brecx ('02), Stefan Renvert ('03), Morten Klepp ('04), Joanna Kamma ('05), Pier Paolo Cortellini ('06), Joerg Meyle ('07), Richard Palmer ('08), Uros Skaleric ('09), Korkud Demirel ('10), Birgitta Von Troil ('11), Moshe Goldstein ('12), Michèle Reners ('13), Phoebus Madianos ('14), as well as those who have been chosen to succeed me in the following years: Juan Blanco ('16), Gernot Wimmer ('17) and Anton Sculean ('18).

EFP Executive Committee: serving the General Assembly

This is the executive arm of the EFP, charged with developing projects approved by the General Assembly and implementing the Strategic Plan. The Executive Committee meets twice a year and is structured around the following committees: Postgraduate Education, Undergraduate Education, Workshop, Scientific Affairs, External Affairs, Congress, Nominating and EuroPerio. Current trends oblige us to become more agile in decision-making with the aim of identifying the opportunities presented by the exciting challenges which we face today. Our horizon is the EFP’s strategic vision: Periodontal health for a better life.

EFP Partners

THANKS

Thanks to the solid collaboration of its sponsors, the EFP is able to carry out its work in serving the development of periodontology and the promotion of health. Dentaïd, Johnson&Johnson, Oral B, and Sunstar are the present EFP partners. In addition, the EFP also collaborates actively on specific projects with other sponsors and exhibitors, notably in EuroPerio.

The transparent collaboration between businesses and an informative non-profit-making scientific entity is a great asset for strengthening the links between science and commercial development, which greatly benefits professionals in periodontology, dentistry, and oral hygiene.

DENTAID - GROUND-BREAKING ORAL HEALTHCARE INDUSTRY BENCHMARK

DENTAID is a multinational pioneer firm dedicated to the research, development and marketing of products for the improvement of human Oral Health. The company's spirit of innovation and commitment to society has allowed it to maintain a leadership position year after year to offer cutting-edge solutions for the prevention, diagnosis and care of complications in the oral cavity caused by dental biofilm.

DENTAID's clear conviction for a job well done allows it to launch new and innovative solutions with the purpose of offering a complete line of products that cover from the most basic to the most specific oral needs.

www.dentaid.com

ABOUT ORAL-B/ P&G

P&G serves nearly 5 billion people around the world with its trusted brands including Ariel®, Crest®, Gillette®, Head & Shoulders®, Olay®, Oral-B®, Pampers® and Vicks®. In 2005, with the acquisition of The Gillette Company by P&G, the iconic Crest and Oral-B brands were united underneath the umbrella of P&G Oral Care. This places P&G Oral Care as the market leader and as the only major oral care company with products across every category: toothpaste, toothbrushes (manual and power), whitening, rinse, denture and floss. Global P&G Oral Care Brands include Oral-B, AZ, blend-a-med, ipana, Fluocaril, Crest and Fixodent.

www.dentalcare.com

JOHNSON & JOHNSON, EFP PARTNER

LISTERINE® Mouthwash is the world's number one daily mouthwash with antibacterial properties to clean the mouth, freshen breath and fight plaque. Over 50 clinical studies support the plaque reduction efficacy of LISTERINE® Mouthwash when used routinely as an adjunct to mechanical plaque removal. LISTERINE® Mouthwash has been used by more than one billion people in more than 85 countries. Professional dental organizations around the world have awarded LISTERINE® Mouthwash with their seals of acceptance. LISTERINE® is distributed by Johnson & Johnson Consumer Services EAME Ltd., which is the world's sixth-largest consumer health company and is a segment of Johnson & Johnson, the world's most comprehensive and broadly based manufacturer of health care products.

www.jnj.com

SUNSTAR, EFP PARTNER

Sunstar, a globally recognized leader in the oral care industry, has been providing research-based products and services in 90 countries for over 80 years. Sunstar was one of the first companies to advocate the new thinking on the integral relationship between oral and systemic health. Sunstar is committed to pursuing research and development through joint-research projects with leading world research institutions as well as dental and medical experts around the world. Sunstar manufactures an extensive line of preventive and therapeutic products under the brands GUM®, BUTLER® and GUIDOR®.

For more information, please visit:

www.sunstar.com

The EFP, a global meeting place

Within the EFP and its national societies there is a clear commitment to openness. Together with other interest groups, we are bringing about the development of periodontology in a way that is appropriate to its scientific strength and its clinical practice.

The development of science and research is aimed at spreading knowledge with a focus on the population's health and well-being, in line with World Health Organisation guidelines. This makes the European Federation of Periodontology – together with its 29 national-society members – a meeting place, a focal point, and a catalyst for the development of periodontology and the

promotion of health. Our strategic vision, 'Periodontal health for a better life', encourages us to ensure that periodontology reaches everyone – especially young periodontists who will be the ones to lead the multidisciplinary future – based on scientific evidence and with the fundamental aim of improving people's health. All members of the executive committee and the various EFP committees have ensured that we can look towards our 25th anniversary with the ability to face the new challenges which lie ahead with great confidence. Because of this, we want the EFP to consolidate itself as the global leader for the world of periodontology.
