INVITATION

A very warm welcome from Istanbul

The European Federation of Periodontology, together with the Turkish Society of Periodontology, is delighted to invite you to the 2nd Perio Master Clinic meeting. The aim of Perio Master Clinic meetings is to bring together clinicians willing to improve their skills in clinical practice to the highest level of excellence. The faculty of this meeting is selected leading experts and clinicians on peri-implant diseases.

Since implants have now become a major part of our practices, the incidence of peri-implant diseases is also on the rise. Make use of this unique opportunity to hear world renowned master clinicians speak and discuss with them matters concerning the diagnosis, prevention and treatment of peri-implant diseases.

This limited attendance meeting will be the chance to focus on the single topic of peri-implant diseases for one and a half days, so make sure to be part of it.

It will also be an opportunity to visit my beautiful city of Istanbul, its covered bazaars and the Bosphorus, as well as to enjoy our national hospitality.

Hoping to share this outstanding experience with you

Korkud Demirel
Congress Chairman
